

MS1793/MS1797 开发和烧录

型号	MS1793, MS1797																																																																																																																																			
存储资源	FLASH: 128 KByte	SRAM:8 KByte																																																																																																																																		
MCU 型号	MM32L073PF (LQFP48) 无 can \无 USB																																																																																																																																			
数据手册	DS_MM32L0xx_n_V2.13_SC.pdf																																																																																																																																			
考参手册	UM_MM32L0xx_n_V1.08_SC.pdf																																																																																																																																			
MDK 编译	MM32L073PF （参考 MM32L073PF HAL 库和例程）
